## MALDI Biotyper@ UCD

## Rapid ID of microorganisms from a single colony-COMING SOON

→ ~25 ng biological material

Bruker's dedicated research-only MALDI BioTyper solution enables identification, taxonomical classification or dereplication of microorganisms like bacteria, yeasts and fungi.

Can be performed as single sample service or, for one annual fee, your student can run their own unlimited samples.

Please contact the Campus Mass Spectrometry Facilities for more information
