1 PURPOSE
   1.1 This procedure establishes the process for an IRB chair to designate a faculty member who can
determine exempt Human Research and non human subject research conducted within their
department, division or school.
   1.2 The process begins when the IRB decides to train a faculty member to determine exempt Human
Research and non human subject research conducted by investigators or students in their
department, division or school.
   1.3 The process ends when the faculty member has been noted in the IRB records as a Designated
Faculty.
