

## Sponsored Programs Key Terms

March 7, 2019

Term	Definition
Allocable Cost	Allocable costs are clearly associated with the particular project. For example, chemicals purchased for use on a specific project should only benefit that project. Restocking general chemical supplies used for a variety of purposes would benefit many projects and may not be easily allocated to individual projects.
Allowable Cost	Allowable expenses are permitted by institutional and sponsor regulations and are consistent with UC Davis charging practices.
Annualized Salary	Annualized salary is a person's salary over 12 months and is different than someone's 9- or 10- month appointment.
Biological Use Approval (BUA)	UC Davis institutional approval for activities or use of materials involving biological materials, including: (1) Research involving recombinant DNA technology, except projects that are exempt under the NIH Guidelines for Research Involving Recombinant DNA Molecules. (2) Work with materials that are infectious (or potentially infectious) to plants, animals, or humans (including replication-defective viral vectors). (3) Working with any material that falls under the Cal OSHA Bloodborne Pathogen Standard. This includes any work with human cell lines, human blood or blood products, and human body fluids. At UC Davis, work with non-human primate (NHP) cells, established NHP cell lines, and NHP blood or blood products also requires a BUA. (4) Storage of biohazardous materials that are not being used.
Broad Agency Announcement (BAA)	Solicitation for proposals or applications.
Budget	A financial proposal that reflects the work proposed.
Budget Categories	Categories of budget line items, such as materials/supplies, travel and personnel.
Budget Justification	A written description of the estimated project costs, including explanation and justification for the individual costs that make up each larger budget category.
Budget Line Items	Individual items included in the budget, such as the Lead Principal Investigator's
co-Investigator (co-I)	Senior/key personnel not in the official Co-PI or Principal Investigator (PI) role. This role is not scientifically diminutive; it just denotes a lesser administrative or management role for the project.
Collaborator	Paid or unpaid personnel that are integral to the project and are listed as senior personnel. Senior personnel in this role may have committed effort or may simply offer as needed advice such as NIH "Other Significant Contributors." If a non-paid collaborator will have committed effort and is employed outside of UC Davis, it is important to get a letter from his or her university or institution approving the collaboration. This allows the collaborator's institution to record committed effort and approve use of facilities for the project.
Composite Benefit Rates	Composite benefit rates are developed in order to cover the costs of fringe benefits offered by the University. The rate is determined by creating a pool of benefit costs and dividing by the salary base per the requirements in OMB circular Uniform Guidance. The federal rates are negotiated with the government in advance for a fiscal year and any over- or under-recovery is included as an adjustment in a
Consistent Cost	Consistent treatment of costs is a basic cost accounting principle and is specifically required by Uniform Guidance to assure that the same types of costs are not charged to federally sponsored agreements both as direct costs and as facilities and administrative (F&A) or indirect costs. These cost elements cannot, under routine circumstances, be both. So, consistency in this context means that costs incurred for the same purpose, in like circumstances, must be treated uniformly as either direct

Term	Definition
Consultant	An individual that provides consultation and/or advice to a project (“brains and briefcase”) but is not responsible for completing the scope of work. UC employees should not be listed as consultants on proposals submitted from UC Davis.
Contracts and Grants Accounting (CGA)	Contracts & Grants Accounting (Extramural Funds Accounting) assists UC Davis faculty and staff in meeting their teaching, research, and operational needs by providing quality financial services for externally funded projects.
co-Principal Investigator (co-PI)	An investigator with equal administrative authority with the Principal Investigator. It is important note that sponsoring agencies have very distinct definitions of Principal Investigators.
Cost Sharing	Cost sharing occurs when a sponsor does not pay the full cost of a sponsored project, and the applicant institution (UC Davis) therefore bears some of the costs. Cost sharing may be in-kind such as a valued donation of goods, or cash for project purchases. The allowability of types and amounts of cost sharing varies by sponsor and program.
Direct Costs	Direct costs are expenses that are clearly associated with and necessary to complete a sponsored project or program.
Effort	The amount of time, either as a percentage of overall effort or in person-months, that an individual will work on a sponsored project.
Escalation	An amount, usually a percentage, that a cost is expected to increase over time.
Facilities and Administrative (F&A) Costs	See "Indirect Costs"
Facilities and Administrative (F&A) Rate	See "Indirect Cost Rate"
Federal Demonstration Partnership (FDP)	An association of federal agencies, academic research institutions with administrative, faculty and technical representation and research policy organizations working to streamline the administration of federally sponsored research.
Federal Flow-through	Funds that originate from a federal sponsor but are paid to the university through another entity, such as the State of California or another academic institution.
Financial Conflict of Interest (COI)	Financial interests that may pose a conflict of interest with a sponsored program or project. Researchers are required to disclose financial interests in the electronic COI system in accordance with federal and state regulations and university policies and procedures.
Fringe Benefits	See Composite Benefit Rates (CBR)
Funding Opportunity Announcement (FOA)	Solicitation for proposals or applications.
Indirect Cost	Indirect costs are associated with the general operation of UC Davis and cannot be readily assigned to individual projects. These costs include facilities and maintenance, general and departmental administration, clerical and administrative salaries and fringe benefits, general office supplies, general purpose equipment, routine postage, building maintenance and utilities and library expenses.

## Sponsored Programs Key Terms

March 7, 2019

Term	Definition
Indirect Cost Base	Amount (of direct costs) to which the F&A rate should be applied
Indirect Cost Rate (IDC or ICR)	An indirect cost rate is a device for determining what proportion of indirect costs each program should bear using sound administrative principles. The indirect cost rate is designed to provide a method for full cost recovery, and it is an equitable, logical and consistent process for allocating costs not directly associated with a single grant/contract, project or cost objective. The university has federally negotiated rates based on these principals; however, rates may vary based on sponsor policy and program guidelines.
Institutional Animal Care and Use Committee (IACUC)	IACUC is an Institutional Animal Care and Use Committee mandated by the Animal Welfare Act and the Health Research Extension Act. Research involving animal subjects must obtain IACUC authorization.
Institutional Review Board (IRB) Administration	The Institutional Review Board (IRB) Administration unit in the Office of Research is committed to following the federal regulations to protect the rights and welfare of human subjects involved in research conducted under the auspices of UC Davis. Research involving human subjects must obtain IRB Administration authorization.
Internal Processing Form (IPF)	The online routing and approval form that must be completed in Cayuse SP for all proposals submitted to the Sponsored Programs and some other offices.
Key Personnel	See "Senior Personnel"
Modified Total Direct Cost (MTDC)	Indirect cost base where indirect costs are charged to salaries and wages, fringe benefits, materials, supplies, services, travel and subgrants and subcontracts up to the first \$25,000 of each subgrant or subcontract (regardless of the period covered by the subgrant or subcontract). Modified total direct costs shall exclude equipment, capital expenditures, charges for patient care, student tuition remission, rental costs of off-site facilities, scholarships and fellowships as well as the portion of each subgrant and subcontract in excess of \$25,000.
Negotiated Indirect Cost Rate Agreement (NICRA)	The Negotiated Indirect Cost Agreement. See "Indirect Cost Rate".
Participant Support Costs	Direct costs for items such as stipends or subsistence allowances, travel allowances and registration fees paid to or on behalf of participants or trainees (but not employees) in connection with meetings, conferences, symposia or training projects.
Principal Investigator (PI) or Lead Principal Investigator	The Principal Investigator has primary responsibility for achieving the technical success of the project, while also complying with the financial and administrative policies and regulations associated with the award.
Reasonable Cost	Reasonable costs would generally be accepted as necessary per a "prudent" person's review.
Request for Applications (RFA)	Solicitation for proposals or applications.
Request for Proposals (RFP)	Solicitation for proposals or applications.

## Sponsored Programs Key Terms

March 7, 2019

Term	Definition
Research Compliance and Integrity (RCI)	The unit in the Office of Research at UC Davis that provides administrative support and oversight to the following compliance areas: (1) Boating and Diving Safety (2) Export Control in Research (3) Financial Conflicts of Interest (4) Human Anatomic Specimen and Tissue Oversight (5) Research Ethics (6) Research Misconduct (7) Stem Cell Research Oversight.
Responsible Conduct of Research (RCR)	Program providing graduate students, postdoctoral scholars, faculty, staff and NSF funded undergraduate students with information, training, and tools to address the increasingly complex issues that they will confront during their careers.
Scope of Work	Narrative description of the work to be conducted.
Senior Personnel	"Non-replaceable" expertise on the project. These are usually all the faculty level investigators, but may also include others at the discretion of the Principal Investigator.
Subaward	An agreement with a third-party organization performing a portion of the project or program scope of work.
Total Costs (TC)	Indirect cost basis where indirect costs are applied to all project costs.
Total Direct Costs (TDC)	Indirect cost basis where indirect costs are applied to all direct costs.
Uniform Guidance	An Office of Management and Budget (OMB) circular that provides federal regulations regarding administrative requirements, cost principles and audit requirements for federal awards.
