

# TRACS Space Request Form

TRACS manages and maintains several UC Davis vivaria for housing of research and teaching animals both in Davis and Sacramento (laboratory space is managed by individual departments). TRACS supports several hundred researchers and staff by providing daily care of animals and maintaining a small amount of procedure space. Space allocations are prioritized on a first-come first-served basis. Please complete this form to request housing space within TRACS vivaria for either short or long term needs.

Principal Investigator:

Date:

Contact Phone Number:

Email:

Department:

Project Name:

Project start date:

How long is housing needed?

Preferred location:

IACUC protocol number:

IACUC protocol approval date:

Biological Use Authorization required?

If "yes", BUA number:
