There was an email out to faculty about expanding administrative support for research administration. What's the anticipated impact in terms of SPO/CGA in terms of FTEs being added and what impact that may have for the folks at the department?

09:07:02 From Gina Lynn Plessas to Everyone:
To add to it, maybe turnout could be down because of the limited availability so basing it on turnout being high is only a good supporting factor but should not be the basis of reducing availability.

09:11:51 From Lorie Dilts to Everyone:
The Clinical Trial Contracts office at UC Davis Health for for-profit sponsor funded clinical trials, no longer has a budget analyst to check that sponsor budget and UBT are accurate. Departments are responsible for ensuring UBT/internal budget is accurate. Many depts are already using the CTMS/OnCore system for building your budgets.

Thank you SPO! All of our faculty continued to get great proposal support even through the rough patches
