      A question for the Awards Team: I manage an award that has mandatory cost share, which I've not dealt with before. Can you talk a little bit about what "in-kind" cost share means and looks like on a federal award?

      NIH's new stipend rate for FY 2022 has not been released yet and I have a RPPR to NIH for T32 program is due. What stipend rate should I use to project the next year's budget? Any idea when the new rate will be release?
