08:42:24 From Yevgeniy Gnedash to Everyone:

     You would need to do a high risk transfer form since it's that old.

08:43:24 From Jenna Wills to Everyone:

     We have been getting push-back from the NIH on our invoices for our cost reimbursement contracts. We currently include the manage project costs and 339 Cognos reports with the invoice and I am wondering if there is a plan to simplify the back-up documentation so that it is easier for the NIH to interpret?

08:43:27 From Allison C to Everyone:

     Myself and a colleague in my dept have seen duplicated payroll activity on about 5 of our projects for 3/18. Is this  known error? It seems to be for sept/oct payroll end dates.

     It's over $1M and there are at least 32 staff members.  It's kind of silly to have to fill out the high risk form AND then have to do exactly the same data entry in UC Path.  Can I get a pass on that? And just provide the giant pivot?

This would be an audit risk, as the procedures are documented. We would be required
to show an auditor the documentation in asked, so we wouldn't be able to make an exception.
Sorry!
