FYI on RECO (fka RCI) is fully staffed, Alaisha's team will be handling export controls, SCRO, and RCR. I am still handling the other RECO topics/tasks (COI and Research Misconduct, for example). Thank you for your patience! And please contact Alaisha if you know any great candidates for our Conflict of Interest and Export Controls/Research Data Security Coordinator positions!

NEW NIH Policy: Foreign Subrecipients

I do not believe we will know more—including those types of details—for a few weeks. The Comment period just closed on 7/5/2023. Once a final determination is made, updated language—including process directives—would be incorporated into the GPS in the FY24 publication. We will continue to monitor NIH announcements for additional details. We would expect UCOP guidance after the NIH announcement. We will continue to share updates as we learn more.
