    Kelly - Can you elaborate on why we must obtain an IRB number at the proposal stage? To do that, we log onto IRB net, complete a couple of items and log out. The number is for an incomplete IRB protocol. What purpose does that serve?

08:45:41 From Alyssa Bunn to Everyone:

    Regarding the IRB question, our understanding is that the reason the IRBnet number is needed on the form 800 is to link the form 800 with the IRB protocol. The IRB needs the COI disclosure linked to the IRB application in order to process the protocol and ensure compliance. If not added at time of proposal, the form 800 must be re-completed at time of award as the disclosure cannot be edited.

    If it's custom cap (K award up to $100k per year). Is that something we should contact UCOP about to add? Or should we just manually calculate the percent effort based on the cap?
