Do you go over the Cost Share budget?

2025-09-23 08:57:46 From Lorie Dilts to Everyone:

As a reminder to SOM staff, the "New - Health" category for proposals is only to be used for SOM that come to the Clinical Trials Contracts office to negotiate new clinical trial contracts (solely funded by for profit entities) . It is not to be used for all SOM proposals nor for clinical trials that are not fully-funded by for profit entities. We are getting a lot of requests in the clinical trials contracts office that are funded by federal/non-profit entities and/or research grants that belong in SPO thus should be submitted as "New". There are a few types of clinical service agreements done in the clinical trials contracts office (don't quite meet definition of clinical trial) however those should be approved by our office in advance and can only be fully funded by for profit entities.
