

List of some of the equipment in the UC Davis – HM.CLAUSE Innovation Center:

Hoods (biosafety, laminar, chemical)	Darkfield colony counter
4 degree C reach-in refrigerators	Ice maker
-20 degree C freezers	Light box with digital camera
-80 degree C freezer	Orbital shaker
Autoclaves (small)	pH meter
Balance (analytical)	Volumetric pipettes
Centrifuge (microtube)	Spectrophotometer (UV /Vis)
Centrifuge (high speed 50 ml cap.)	Speedvac concentrator
Conductivity meter	Thermocyclers (96 and 384 well)
Dishwasher	Transluminator (Clare dark reader)
Microscope (dissecting)	MilliQ water system
Drying oven	UV lamp (handheld)
Fiber white light source	Vacuum pump
Flammable storage cabinet	Vortex mixers
Power supplies	Warm water bath
Growth chamber	Heating/stir plates
Hazardous waste disposal bins	Polytron Homogenizer
Heat blocks	Camera stand
Horizontal electrophoresis equipment	Deionized water system
Germination cabinets	Incubator/shaker (floor model)
General Glassware	Cabinet incubators (30 & 37 C)
Plate reader (ELISA)	Microwave
Label maker	Transilluminator (UV)
Cepheid Smart Cycler (RealTime-PCR; 16)
